

KAVALA FERTILIZERS LTD

PRODUCT SPECIFICATION

Fertilizer AN 33,5-0-0

Total Nitrogen (N) 33,5%

Nitric (NO₃) 17%

Ammoniac (NH₄) 16,5%

Screen Analysis

Granular: 2.0 – 5.0 mm 90% minimum

<1.0mm 1% maximum

Colour: White

High-quality Ammonium Nitrate, with a balanced ratio (1:1) of Nitric and Ammoniac Nitrogen. Its chemical composition and excellent granulometry make it an ideal choice to cover the needs of field crops, arboriculture and horticulture.
