

KAVALA FERTILIZERS LTD

PRODUCT SPECIFICATION

Fertilizer AN 34,5-0-0 coated

Total Nitrogen (N) 34,5%

Nitric (NO₃) 17,5 %

Ammoniac (NH₄) 17 %

Screen Analysis

Granular: 2.0 – 5.0 mm 90% minimum

<1.0mm 1% maximum

Colour: White

Ammonium Nitrate of high purity and content, with a balanced ratio of Nitric and Ammoniac Nitrogen. The immediate absorption of Nitrogen contributes to the robust growth of the plants and leads to increased yields of the crop.
